**Statement:**

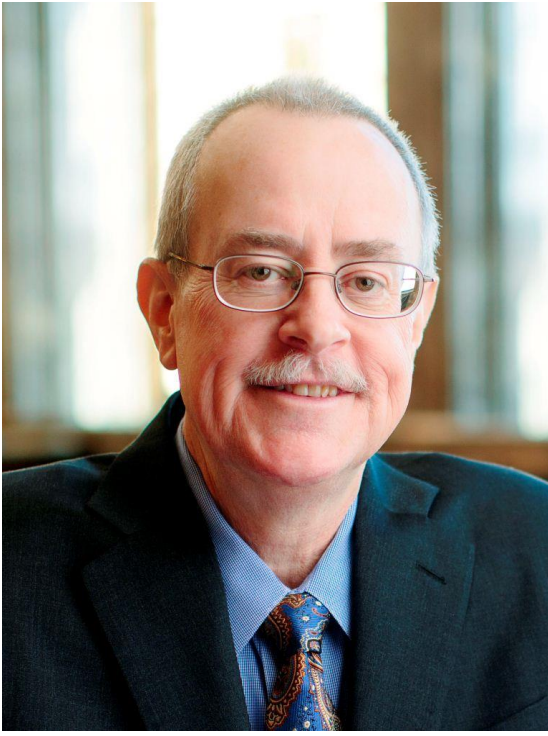

It is an honor serving our community as State Representative. During my time in office I have repeatedly heard two requests: Rise above partisan rhetoric and do the right thing for Alaska's future. I have a proven record of open-door leadership on the important issues facing Alaska today. I am known for hard work, straight talk and proven results.

My highest priorities continue to be common sense fiscal policy, constructing a North Slope natural gas pipeline, improving government efficiency, education funding, and a strong economy. With vision and strong leadership we can strengthen our economy, control the cost of government, and sustain a responsible level of spending. Our solutions must be founded on fiscal discipline, but meet Alaska's growing needs.

There are always challenges achieving the future we want. Increasing oil production and getting our natural gas to market are critical. These, along with better schools, safer communities, good career opportunities, and greater access to affordable health care depend on electing legislators who care and can get the job done. I have the right combination of skills and experience to do it.

I have lived in our district 35 years and am the only legislator who has been a CPA and financial professional. I have served as Chair of the Finance, Budget and Audit, and Ways and Means Committees. My re-election assures our district continues to be represented by a proven and effective legislator who listens and works for you.

I appreciate your continued support and ask for your vote.
